INTRODUCTION

Homad Associates LTD is a renowned design and construction firm in Nigeria, the most populous black nation, offering complete advisory services for every aspect of building design and construction.

Founded on the 20th of January 2009, and incorporated under the Companies Act of 1990 with the Registration Number (RC: 796961), we deliver unique ideas and thorough attention to detail to assure the effective execution of any project, whether it is residential, commercial, or industrial.

We have successfully completed various projects across Nigeria, ranging from libraries and community centres to hospitals and massive silicon chip manufacturers. Our versatility and breadth of competence allow us to tackle a wide range of project types with ease.

Homad Associates LTD is dedicated to making dreams a reality via our full design and construction services. Among our notable designs are the Gusau Hotel Zamfara, Asokoro Estate, Zamfara Stadium, Mararraba Estate, Nedc Model School, and Stallion Estate Mabushi.

We think that success is defined not only by project completion but also by the realisation of our customers' goals and happiness. We take our ideals alongside our team as we grow as a firm, assuring fast payment procedures, safe job site practices, and fair treatment of subcontractors and the local community.

CORPORATE STATEMENT

OUR MISSION

Our mission is to produce great design and construction solutions that exceed expectations and give our clients with long-term happiness. At Homad Associates LTD, we believe that exceptional craftsmanship, ethics, and client satisfaction are the foundations of success. Which is why we produce economical, sustainable, and ecologically responsible structures with an uncompromising dedication to quality.

OUR VISION

Homad Associates LTD aims to become the leading provider of comprehensive design and construction solutions by setting a standard of excellence and producing unrivalled results in all aspects of our business. We strive to mould the future of the construction industry and create new standards of excellence for others to follow by offering excellent workmanship, sustainable practices, and unrivalled quality.

CORE VALUES

Commitment: Homad Associates LTD is committed to providing superior client-driven solutions. We develop long-term connections with our clients by looking for methods to help them reach their goals.

Excellence: Our commitment to excellence guarantees that we constantly provide exceptional outcomes and outperform industry expectations. We have high expectations for our clients in terms of service, quality, and personal attention.

Integrity: In all parts of our business, Homad Associates LTD adheres to the highest ethical standards. We continually aim to "do the right thing" and uphold our reputation for dependability. Our dedication to ethics has given us the opportunity to oversee high-profile and frequently one-of-a-kind projects in Nigeria.

Teamwork: We promote a people-focused atmosphere that values cooperation and teamwork. We also collaborate closely with our clients as a team, laying the groundwork for our success with mutual respect and trust.

Innovation: Our dedication to innovation enables us to deliver creative and sustainable construction solutions to meet the different demands of our clients. We provide cutting-edge ideas and technology to improve the design and construction processes by keeping at the forefront of industry innovations.

OUR PEOPLE

At Homad Associates LTD, we cherish our employees' contributions and competencies, viewing them as the foundation of our organisation. Their commitment, competence, and unwavering pursuit of perfection enable us to continuously surpass expectations and keep our projects on schedule, assuring client satisfaction.

We believe in creating an atmosphere that fosters talent and stimulates cooperation, and individual growth. Promoting a culture of continuous learning and professional growth, motivating our team members to strive for the greatest quality and professionalism at all times.

Our specialists, from engineers and technicians to project managers and support workers, have the skills and years of industry-leading knowledge necessary to achieve excellent outcomes. We value honesty, commitment to quality, and a professional attitude among our team members as an organisation.

KEY STAFF MEMBERS:

Meet our key staff members and those who make up our Management team;

Design

With a strong emphasis on quality, creativity, and client satisfaction, Homad Associates LTD has been offering engineering design services since 2009. We are your go-to partner for making iconic and significant projects in Nigeria.

Our design services cover a wide variety of disciplines, such as civil, structural, and environmental engineering. We treat every project as an important part of the bigger picture and understand that it contributes to the general growth and development of the nation.

We carry out extensive economic and technical feasibility assessments to guarantee the success of our projects. This enables us to evaluate the project's prospective effects, comprehend the particular needs of our clients, and suggest the best possible solutions.

Our experience guarantees that the projects we work on are not only practical and visually beautiful, but also safe and secure. We prioritise the health of all stakeholders and include cutting-edge solutions that prioritise safety measures in our design process.

From concept conception to thorough engineering, Homad Associates LTD pursues excellence in all facets of our design process. We stay up to date on the newest market developments, scientific discoveries, and environmentally friendly procedures. We produce designs that are both aesthetically pleasing and useful by fusing our technological know-how with original ideas.

Build

Homad Associates LTD is a trusted company for construction services for building projects in Nigeria today. We are backed by a trustworthy and devoted staff committed to providing first-rate construction services and building structures that improve the built environment.

No matter if the project is for residential, commercial, institutional, or industrial development, we have the ability to tackle projects of varying sizes and complexity. Each structure we construct satisfies the greatest requirements for durability, practicality, and beauty due to our attention to detail and dedication to workmanship.

To guarantee that every element is precisely planned and performed, we work closely with our clients, the design, and engineering teams to produce successful and extraordinary projects.

Safety is a paramount concern in our construction projects, as we maintain a robust safety program and adhere to industry best practices to create a secure working environment for our employees, subcontractors, and all individuals involved in the construction process.

At Homad Associates LTD, we understand the importance of timely project delivery, utilizing effective project management practices, efficient scheduling, and a skilled workforce to ensure that projects are completed on time and within budget.

Quality Assurance

Homad Associates LTD places a great priority on quality throughout all aspects of business operations, putting in place a thorough Quality Assurance (QA) programme to uphold strict quality control at each stage of the design and construction process.

We consistently improve our approach to provide even better levels of quality by keeping up with the most recent technology and industrial breakthroughs. Each project displays our ongoing commitment to excellence thanks to our attention to quality assurance.

Homad Associates LTD seeks to establish enduring partnerships based on trust, dependability, and great craftsmanship by continuously producing exceptional quality projects. To improve results, we actively solicit feedback, assess procedures, and take remedial action.

RC 796961

HEALTH, SAFETY AND ENVIRONMENT POLICY

We have created a culture where the health and safety of our workers, subcontractors, customers, and everyone else connected to our construction sites comes first.

We offer thorough training and education programmes to give our workers and subcontractors the skills, information, and resources they need to increase safety, manage risks, and enhance loss control on all of our projects.

We have clear emergency protocols in place, including specified assembly/evacuation points that are conveyed to the supervisor of the ground operation. A copy of each method statement, risk assessment, and inspection record that is pertinent to safety is kept on-site for future reference.

On-site first aid is easily accessible, and an assigned supervisor is in charge of handling emergencies. Hard helmets, safety shoes, high-visibility clothes, and other gear dependent on site circumstances are just a few examples of obligatory and strictly enforced personal protection equipment.

We monitor the health and safety of subcontractors when we hire them by treating them like employees and choosing them based on their performance history, references, and answers to our evaluation questionnaire.

Our operations are infused with a dedication to health, safety, and the environment, creating a safe and healthy working environment for everyone participating in our projects.
